

Zohar Avramoviz - Backend Developer

0523805476

Zohrtal@gmail.com

[Linkedin](#)

[GitHub](#)

[Portfolio](#)

Computer Science student focused on backend development, with strong analytical and problem-solving skills.

Driven to build scalable systems and understand software architecture from end to end.

A proactive and dependable team player, quick to learn, take ownership, and contribute to meaningful results.

PROJECTS

CryptoFile – Secure File Sharing & Messaging Platform

[GitHub](#) | [Live Demo](#) | [Demo Video](#)

- Developed a production-style secure platform for encrypted file sharing, messaging, and steganography.
- Designed AES-GCM encryption flow with KEK/DEK key management
- Built REST APIs with FastAPI, JWT authentication, PostgreSQL, SQLAlchemy, and Alembic
- Applied Clean Architecture to separate domain, application, infrastructure, and presentation layers
- Integrated React frontend with backend APIs, Docker-based local environment, and cloud deployment workflow.

Server-Side Application – Node.js

[GitHub](#) | [Demo Video](#)

- Developed a Node.js server-side application with REST API endpoints and a modular backend structure.
- Collaborated in a team-based Git workflow, including branching, pull requests, and code integration

Fake News Classification – NLP Project

[GitHub](#)

- Built a machine learning model for fake news detection using text classification
- Performed data preprocessing, feature extraction, model training, and evaluation
- Worked with Python, Pandas, Scikit-learn, and Jupyter Notebook

TECHNICAL SKILLS

Programming Languages: Python, Java, C#, JavaScript, TypeScript

Backend & APIs: FastAPI, Node.js, REST APIs, JWT Authentication, API Design, WebSockets

Databases & ORM: PostgreSQL, MongoDB, SQLAlchemy, Alembic Migrations

Frontend: React, HTML, CSS

Cloud & Storage: Render, Cloudflare R2

DevOps & Tools: Docker, Docker Compose, Git, GitHub Actions, Linux Basics, Postman, VS Code, PyCharm, Cursor

Testing: Pytest, Unit Testing, API Testing

Concepts: OOP, Design Patterns, Clean Architecture, Authentication & Authorization, AES-GCM Encryption, Machine Learning

EDUCATION

B.Sc. in Computer Science, Holon Institute of Technology (HIT), Israel

2023 – Present

PROFESSIONAL EXPERIENCE

Digital Campus Manager, Holon Municipality, Israel

2024 – 2025

Translated real user needs into practical digital workflows and technology-based solutions for educational teams.

Owned requirement gathering, solution planning, technical guidance, and implementation of practical workflows.

Explosives Instructor, Combat Engineering Corps – IDF

2018 – 2022

Delivered technical training to commanders and elite units, strengthening precision, responsibility, and clear communication under pressure.

LANGUAGES

Native Hebrew and fluent English
