Zohar Avramoviz - Backend Developer

0523805476

Zohrtal@gmail.com

[Linkedin](#)

[GitHub](#)

Computer Science student focused on backend development, with strong analytical and problem-solving skills.

Driven to build scalable systems and understand software architecture from end to end.

A proactive and dependable team player, quick to learn, take ownership, and contribute to meaningful results.

EDUCATION

B.Sc. in Computer Science, Holon Institute of Technology (HIT), Israel

2023 – Present

B.Ed. in Education, specializing in Mathematics and Jewish Studies, completed in a selective

2020 – 2023

honors program, Shaanan Academic Religious Teachers' College, Haifa, Israel

TECHNICAL SKILLS

Programming Languages: Python, Java, C#, JavaScript

Backend & APIs: FastAPI, Node.js, REST APIs, JWT Authentication, API Design

Frontend: React, HTML, CSS

Databases & Storage: PostgreSQL, MongoDB, Cloudflare D1, Cloudflare R2

Dev Tools: Docker, Git, GitHub, GitHub Actions, Postman, VS Code, PyCharm, Cursor

AI Tools: ChatGPT, Claude Code, Gemini

Concepts: OOP, Design Patterns, Clean Architecture, Encryption (AES), Machine Learning Basics

PROJECTS

CryptoFile – Secure File Sharing & Messaging Platform

[GitHub](#) | [Live Demo](#) | [Demo Video](#)

- Developed a secure full-stack platform for encrypted file sharing, messaging, and steganography
- Designed AES-GCM encryption flow with KEK/DEK key management
- Built REST APIs with FastAPI, JWT authentication, PostgreSQL, SQLAlchemy, and Alembic
- Applied Clean Architecture to separate domain, application, infrastructure, and presentation layers
- Integrated React frontend, Docker-based local environment, and cloud deployment workflow

Server-Side Application – Node.js

[GitHub](#) | [Demo Video](#)

- Developed a Node.js server-side application with REST API endpoints and structured backend layers
- Collaborated in a team-based Git workflow, including branching, pull requests, and code integration

Fake News Classification – NLP Project

[GitHub](#)

- Built a machine learning model for fake news detection using text classification
- Performed data preprocessing, feature extraction, model training, and evaluation
- Worked with Python, Pandas, Scikit-learn, and Jupyter Notebook

PROFESSIONAL EXPERIENCE

Digital Campus Manager, Holon Municipality, Israel

2024 – 2025

Led technology integration, AI-based workflows, and professional training for educational teams.

Mathematics Teacher & Coordinator, Mikve Israel / Harel Educational Campus, Israel

2023 – 2025

Led mathematics instruction, curriculum planning, staff mentoring, and structured problem-solving processes.

Jewish Community Educator (Shaliach), Torah Mitzion, Montreal, Canada

2022 – 2023

Developed bilingual educational programs and led community initiatives.

Explosives Instructor, Combat Engineering Corps – IDF

2018 – 2022

Delivered technical training to commanders and elite units in high-pressure environments.

LANGUAGES

Native Hebrew and fluent English
